EXPERIENCE

Frontend Developer

Innception

Oct 2021 - Present, Remote

- Designed and implemented fully responsive form modal for franchise card components in React including the usage of the Google places API for autocomplete functionality.
- Greatly improved performance for the application's searchbar component by re-arranging the existing code to use Redux.
- Implemented bottom sections for the card components by using props dynamically determined by the data being sent from the API.
- Collaborated with back-end developers to solve diverse bugs stemming from issues related to the API's data being served to the client.

Night Auditor

Ilunion

Feb 2011 - Jun 2021, Barcelona

- Handled the accounting and bookkeeping for the establishment's daily transactions.
- System administration including End of Day processes in PMS.
- Revenue management through the extranet systems. Investigate room rates and note any rate discrepancies in log-book.
- Customer service and establishment security duties.

EDUCATION

React Bootcamp

IT Academy

2021, Barcelona

Web Development Path

Codecademy

2020, Remote

PHP Course

Educatic Fomento

2020, Remote

SUMMARY

Motivated front-end developer who's also passionate about back-end work. Fast paced and a natural problem solver. Team-player with great soft-skills.
